

# THE GREEN WASH MACHINE USER DIRECTIONS

## 1. REPLENISH/FILLING OF GREEN WASH

A Release the pressure valve

-Open pump by unscrewing anticlockwise using/holding the pump handle.

-Pour wax into pump.

-Close the pump by screwing clockwise.

B -Fill hand spray bottles with relevant chemicals.

-Bug bottle with blue bug cleaner.

-Rim bottle with yellow rim cleaner.

-Tyre bottle with pink tyre cleaner.

## 2. CAR WASH DIRECTIONS

Firstly, you need to pump the Pump up 4 bars of pressure

### 2A. SPRAYING THE CAR

Hold the spray gun 25cm away from the car then spray thin layer of wax in a straight line across the selected car panel/area/zone, not on the windows

### 2B. SPRAYING THE CAR

Make sure the cloth is damp then fold the blue cloth square, then wipe off using even parallel strokes, turning the cloth each time.

**\* DO NOT RUB WAX OFF IN CIRCLES**

Use the green polishing cloth to buff/polish the selected zone until shiny. Move to the next zone and repeat the process (2A & 2B)

## 3. WINDOW CLEANING

Spray bug cleaner directly onto window  
Wipe off immediately with the yellow microfiber cloth. Take the second cloth and polish.

## 4. RIM CLEANING

Spray rim cleaner onto the rims, tyre and wipe off using a wet pink microfiber cloth

## 5. TYRE CLEANING

Apply tyre shine onto the sponge and apply the tyre shine.
